Create some very cool buttons for your website layouts. I recommend you make them smaller and they will look really cool.

- Click here to see the video version of this tutorial.
- Open a new 468 x 60 PSD document.
- Go to Layer -> New -> Layer, name it bg and click ok.
- Fill the new layer with light grey (#ebebeb).
- Go to Layer -> Layer Style -> Stroke, apply the following changes and click ok: (use #666666 for Color) -
- Go to Layer -> Layer Style -> Gradient Overlay, apply the following changes and click ok: (Don't change Blend Mode to Multiply, use Normal... looks better normally) -
- Now grab the Rounded Rectangle tool (R) and make a shape like this: -
- Go to Layer -> Rasterize -> Shape. -
- Go to Layer -> Style -> Stroke, apply the following changes and click ok. (use #666666 for Color) -
- Go to Layer -> Style -> Gradient Overlay, apply the following changes and click ok: -
- Change your foreground color to soft-light blue. (#448cca). -
- Write your business phone number or anything short on the bottom write corner like below (Phone No. Recommended): -
- Add some other texts, apply text effects to them.... that's all. -
- Here's how my final result looks like:
